

King's Sutton Tennis Club

COVID-19 Return to Restricted Play

The LTA, in discussion with government, have produced a set of practical guidelines to follow while enabling restricted play at tennis clubs in England.

These [LTA guidelines](#) must be followed by members if they wish to play tennis at King's Sutton Tennis Club (KSTC) whilst social distancing rules remain in place across the country.

The KSTC committee have also put the following measures in place for this period to further aid social distancing and minimise surface contact:

1. Use of the KSTC courts is strictly for members. If you are interested in becoming a member please view our [Membership](#) page.
2. A member cannot book a court to play with a non-member(s) / guest(s).
3. The clubhouse will remain locked and cannot be used by members. We will re-open it as soon as it is considered safe to do so.
4. The courts will remain locked as usual when not in use and only members will have the court padlock code. Please lock the courts and the car park gate if you are the last person to leave.
5. As the clubhouse is locked, our First Aid kit will be kept in a weatherproof container just inside the entrance gate to Courts 1&2.
6. Hand sanitiser is attached to the net posts on each court. Please use it after touching any gates or locks and before and at the end of each session / match.
7. The benches on the courts have been removed and will remain locked away in the clubhouse during this period. The nets have been measured and immobilised – please do not try to wind them.
8. Courts must be booked using [KSTC's online court booking system](#). There are specific, defined playing slots each day with staggered starting times to aid social distancing. Members cannot use the courts unless they have made a prior online booking.
9. Only over 18's can make a court booking. Parents/guardians must make bookings on behalf of players aged under 18.
10. Any players who feel unwell before or during a court booking with any COVID-19 related symptoms should not play, or continue playing, and should let their playing partner(s) know.
